*Curriculum Vitae
and List of Publications*

November, 2017

Education

Ph.D. Geophysics, University of Colorado, Boulder, 2001

M.S. Geology, University of Colorado, Boulder, 1998

B.A. Geology, Magna Cum Laude, minor **Mathematics**, University of Colorado, 1995

Positions Held

Professor (2016-present) Department of Earth and Planetary Sciences, Northwestern University

Faculty Member, Graduate Program in Applied Physics, Northwestern University

Associate, Center for Interdisciplinary Exploration and Research in Astrophysics

Associate Professor (2011–2016) Department of Earth and Planetary Sciences, Northwestern

Assistant Professor (2006–2011) Department of Earth and Planetary Sciences, Northwestern

Research Scientist, Principal Investigator (2005–2006)

Carnegie Institution of Washington, Geophysical Laboratory, Washington D.C.

Barbara McClintock Fellow, Postdoctoral Research Associate (2004–2005)

Carnegie Institution of Washington, Geophysical Laboratory, Washington D.C.

Alexander von Humboldt Fellow, Postdoctoral Research Associate (2001–2003)

Bayerisches Geoinstitut, University of Bayreuth, Germany

CIRES Graduate Research Fellow (1999–2000)

Cooperative Institute for Research in Environmental Sciences, University of Colorado

Graduate Research Assistant (1995–2001)

University of Colorado, Department of Geological Sciences

Research Assistant (1994–1995)

United States Geological Survey, National Ice Core Laboratory, Lakewood, Colorado

Research Assistant (1994 and 1997)

University of Nevada, Reno, Desert Research Institute, National Ice Core Laboratory

Research Statement

I study the physics and chemistry of minerals, glasses and melts in various applications to Earth and planetary science, chemistry, and materials science. In mineral physics, I use information about the composition, structure, and physical properties of materials to understand geophysical processes, geochemical cycling, and to investigate potentially useful properties of minerals and new materials for societal applications. I am especially interested in the origin and distribution of water in the Earth. In chemistry and materials science, I use extreme conditions of pressure and temperature to explore new phase space in the design and synthesis of functional materials such as superhard ceramics. I am also interested in science policy and outreach at all levels.

Awards and Fellowships

Friedrich Wilhelm Bessel Research Award

Alexander von Humboldt Foundation, 2014

Weinberg College Distinguished Teaching Award

Northwestern University, Weinberg College of Arts and Sciences, 2013

Presidential Early Career Award for Scientists and Engineers (PECASE, 2008)

White House Office of Science and Technology Policy

Citation: *For innovative experimental research to elucidate the critical role of water on the physical properties of the Earth's deep interior. Further recognition for prioritizing science education at all levels and proactively working to close the minority achievement gap in science and mathematics*

Packard Fellowship for Science and Engineering

David and Lucile Packard Foundation, 2008-2012

Faculty Early Career Development Award (CAREER)

National Science Foundation, 2008-2012

Mineralogical Society of America Distinguished Lecturer

Mineralogical Society of America, 2007-2008

Barbara McClintock Postdoctoral Fellowship

Carnegie Institution of Washington, 2005-2006

Alexander von Humboldt Fellowship

Bayerisches Geoinstitut, University of Bayreuth, Germany, 2002-2003

E.H. Kraus Grant for Research in Crystallography

Mineralogical Society of America, 2001

Excellence in Trades Award

University of Colorado, Department of Physics, 2001

Mineral and Rock Physics Graduate Research Award

American Geophysical Union, 2000

Longley, Wahlstrom, Warner Award

University of Colorado, Department of Geological Sciences, 2000

CIRES Graduate Research Fellowship

Cooperative Institute for Research in Environmental Sciences, Univ. of Colorado, 1999

Patents

Title: **Optical Contact Micrometer**

Patent number: 8,810,904

Filing date: 02/09/2012; Awarded 08/19/2014.

The optical contact micrometer consists of a double-contact micrometer interfaced with an optical heterodyne interferometer to achieve high-spatial resolution, high-precision sample thickness measurements for a variety of material physical properties measurements such as infrared spectroscopy and ultrasonic interferometry. With spherical contact lenses of 5 mm diameter, the spatial resolution is on the order of 50 micrometers, and by interfacing the instrument with any commercially available heterodyne interferometer, sample thickness can be determined with $\pm 0.05 \mu\text{m}$ total experimental uncertainty. Examples include application to determining elastic properties of diamond and related superhard materials.

Funding and Research Awards

| | |
|---|------------------|
| National Science Foundation (DMR-Ceramics) | \$298,701 |
| <i>“Hardness and Elastic Properties of Superhard and Ultrahard Materials”</i> | |
| PI (co-PI, C.R. Bina) award dates: 07/2015-06/2017 | |
| National Science Foundation (EAR-Geophysics) | \$343,479 |
| <i>“Hydration State of the Transition Zone and Lowermost Mantle”</i> | |
| PI, award dates: 01/2015-01/2018 | |
| DOE/NNSA, Carnegie/DOE Alliance Center (CDAC), Partner Inst. Sub-award | \$428,066 |
| SSAA Program of the National Nuclear Security Administration | |
| <i>“High-pressure elastic properties of minerals, glasses, and superhard materials”</i> | |
| PI, award dates: 03/2013-02/2018 | |
| David and Lucile Packard Fellowship for Science and Engineering | \$875,000 |
| <i>“Elastic properties of superhard materials using gigahertz-ultrasound”</i> | |
| PI, award dates: 11/2008-11/2013 (extended to 11/2017) | |
| National Science Foundation (CAREER EAR-0748707) | \$509,328 |
| <i>“Effects of hydration on the physical properties of mantle materials from atomic to geophysical scales.”</i> With PECASE. PI, award dates: 01/2008-12/2013 | |
| DOE/NNSA, Carnegie/DOE Alliance Center (CDAC), Partner Inst. Sub-award | \$274,147 |
| SSAA Program of the National Nuclear Security Administration | |
| <i>“Elasticity of superhard materials using GHz-ultrasonic interferometry”.</i> | |
| PI, award dates: 03/2008-02/2013 | |
| National Science Foundation (EAR-0948953) Instrumentation and Facilities | \$176,155 |
| <i>“Acquisition of a Single-Crystal X-ray Diffractometer for Earth and Planetary Materials Research and Education at Northwestern University”.</i> PI, award dates: 11/2010-10/2011 | |
| National Science Foundation (EAR-0651173) Instrumentation and Facilities | \$58,275 |
| <i>“Acquisition of a broadband oscilloscope for GHz-ultrasonic studies of mineral elasticity in the diamond anvil cell”.</i> PI, award dates: 02/2007-2/2008 | |
| National Science Foundation (EAR-0440112/EAR-0721449) Geophysics Program | \$298,671 |
| <i>“High P-T elasticity of deep Earth materials with new Gigahertz-ultrasonic techniques”</i> | |
| PI (co-PI, R.J. Hemley), award dates: 12/2004-12/2008 | |
| <i>Internal grants:</i> | |
| Northwestern University, Innovative Initiatives Incubator (I3) Grant | \$240,000 |
| <i>“Charting high-pressure phase space for undiscovered magnetic materials”</i> | |
| Danna Freedman (PI), Steve Jacobsen (co-PI), Christopher Wolverton (co-PI) | |
| Award dates: 09/2016-08/2018 (\$73k to Jacobsen) | |
| Northwestern University, Data Science Research Grant | \$50,000 |
| <i>“High-pressure materials design and discovery using big quantum data”</i> | |
| Christopher Wolverton (PI), Steve Jacobsen (co-PI), Award date: 09/2016 | |
| Northwestern University, Weinberg College of Arts and Sciences, Hewlett Grant | \$34,374 |
| <i>“Establishment of an Earth and Planetary Materials Undergraduate Teaching Laboratory.”</i> PI, Award date: 09/2006 | |
| Northwestern University, Weinberg College of Arts and Sciences, Hewlett Grant | \$5,639 |
| <i>“Modernization of Northwestern’s rock and mineral collection in support of innovative undergraduate education and public outreach.”</i> PI, Award date: 06/2010 | |

Committee Membership

- Member*, Committee on Seismology and Geodynamics, 2015-present
National Academy of Sciences
- Member*, Executive Committee of COMPRES, 2015-present
NSF-Consortium for Materials Properties Research in Earth Sciences (COMPRES)
- Member*, DOE Beamline Advisory Team (BAT) NSLS-II FIS/MET beamline, 2015-present
National Synchrotron Light Source-II (NSLS-II)
- Member*, Advisory Committee, J.B. Cohen X-ray Diffraction Laboratory, 2016-present
Department of Materials Science and Engineering, Northwestern University
- Member*, Curricular Policy Committee, Weinberg College of Arts and Sciences, 2016-present
- Member*, Review Panel, NSF Geophysics Program Postdoctoral Fellowships, 2014
- Member*, Laser Safety Committee, Northwestern University, 2008-2014
- Elector*, Northwestern University Institutional Representative to NSF-COMPRES, 2006-present
- Member*, Administrative Board of The Graduate School, Northwestern, 2012-present
- Member*, COMPRES Nominations Committee, 2011-2012
- Member*, Education, Outreach and Infrastructure Development Committee, 2008-2014
- Member*, Ad hoc Committee on Education and Outreach for COMPRES, 2012-2013
- Member*, NSLS-II beamline development proposal team, 2009-2011
Title: Frontier Synchrotron Infrared Spectroscopy Under Extreme Conditions
Awarded NxtGen beamline development status from DOE, May, 2012
- Director of Computing*, NU Dept. Earth and Planetary Sciences, 2008-2012
- Member*, Mineral and Rock Physics Executive Committee, AGU, 2004-2010
- Member*, Mineral and Rock Physics Graduate Research Award Committee, AGU, 2006-2010
- Chair*, Mineral and Rock Physics Graduate Research Award Committee, AGU, 2007-2008
- Member*, Space Planning Committee, NU Dept. Earth and Planetary Sciences, 2008-2012
- Member*, Program Committee Annual COMPRES meeting, 2008-2010
- Member*, Geophysics Review Panel, NSF, Division of Earth Sciences, 2007
- Member*, Program Committee, American Geophysical Union, 2004-2005

Editorship, and Outreach

- Associate Editor*, Geophysical Research Letters, May 2012-present
- Associate Master*, Public Affairs Residential College, Northwestern University, 2009-2014
- Project Excite*, Earth science education courses for Evanston district 65 3rd&4th graders
Northwestern University, Center for Talent Development, 2006-present
- Assistant Coordinator*, NSF-REU Summer Scholar Program, Carnegie Institution, 2004-2006
- Editor*, AGU Monograph, "Earth's Deep Water Cycle" (with S. van der Lee), 2006
- Guest Editor*, *Journal of Synchrotron Radiation*: Structure determination by single-crystal X-ray diffraction at Megabar pressures (with P. Dera and C.T. Prewitt), Volume 12, 2005
