The Invention Disclosure

An **INVENTION DISCLOSURE** is Northwestern’s record of an invention, the inventors involved, sponsorships, & other public disclosures and publications.

Inventors should plan to submit their invention disclosure 3-4 weeks prior to a public disclosure

- Posters/abstracts/proceedings
- Journal articles, book chapters
- Conference presentations
- Some departmental seminars & thesis defenses
- Some grant proposals

**DISCLOSING AN INVENTION TO INVO DOES NOT PROTECT AN INVENTION. A PATENT APPLICATION MUST BE SUBMITTED TO THE USPTO**
Reasons to Disclose to INVO

1. PROTECT COMMERCIAL POTENTIAL
   INVO can provide feedback on how to proceed in the commercialization process.

2. PROTECT INTELLECTUAL PROPERTY
   If IP protection is appropriate, INVO can maximize IP protection if invention is disclosed in advance of public disclosure.

3. FULFILL NU’S RESPONSIBILITY TO REPORT TO RESEARCH SPONSORS
   INVO must report all inventions to respective public and private research sponsors.

4. IMPROVE MARKETING WITH INDUSTRY PARTNERS
   INVO can help provide industry with insight into available technologies and the research that is taking place at the university.

Describe the invention in a less technical manner.
What is the relevance to the public?

Describe the invention in a more technical manner.
This helps our team and outside counsel to understand how this invention is distinct from other inventions.
### Invention Disclosure Form

- Note work that is similar and differentiate. Better to disclose information upfront.

Important Take-Homes

- Complete the disclosure as thoroughly as possible.
- Be available to meet with IM to discuss your technology.
- Respond to IM as quickly as possible as they may have time-sensitive questions.
- Send relevant updates to IM, such as future public disclosures or technology development.
Commercializing Technologies

1. Explore Additional Sponsored Research Opportunities
   INVO coordinates with other offices to review IP stipulations. Ideally, several weeks are needed to review these agreements.

2. License Technology to Existing Company
   INVO helps identify and negotiate license agreements. If there’s interest, IMs contact faculty to discuss.

3. Create University Startup
   INVO has Startup Guide online.
