Facilities & Administrative Rate

Tina Mete
Senior Financial Research Administrator
Office of Cost Studies
Higher Education: 4 Major Functions

- Instruction
- Organized Research
- Other Sponsored Activities
- Other Institutional Activities
F&A Rates

- All research and development activities of an institution Facilities and Administrative Cost - also known as *Indirect Cost, Overhead Cost*
- F&A Rates are Calculated per Major Function once every 3 or 4 years by the Office of Cost Studies
- F&A Rates of Instruction, Organized Research, and Other Sponsored Activities are then *Negotiated* with the Federal government
- Organized Research accounts for the largest reimbursement of the F&A Cost and is today’s focus
Organized Research

- All research and development activities of an institution are separately budgeted and accounted for including:

1. **Sponsored Research**: All research and development activities that are sponsored by Federal and non-Federal agencies and organizations

2. **University Research**: All research and development activities that are separately budgeted and accounted for by the institution under an internal application of institutional funds
F&A Rate Calculation

• The rate is based on a periodic calculation and submission of a rate proposal, which is then negotiated with Northwestern’s cognizant agency (DHHS)

\[
\frac{\text{Indirect Costs} \text{ Supporting Organized Research}}{\text{Direct Costs} \text{ of Organized Research}} = 58.0\%
\]
The F&A Ratio

The “Pools”
• Facilities costs
• Administrative costs
• Based on allocations of actual costs

The Base
• Based on actual costs charged to research projects
• Typically expressed as MTDC but can be TDC or salary & wages

Indirect Cost “Pools”
-------------------- = 58%
Direct Cost “Base”
Facilities & Administrative Costs

Facilities Related Costs
- Building Depreciation/ Use Allowance
- Equipment Depreciation/ Use Allowance
- Interest
- Operations & Maintenance
- Library

Administrative Related Costs
- General Administration (GA)*
- Department Administration (DA)*
- Sponsored Projects Administration (SPA)*
- Student Services
Assign expenditures to pools and bases by function code

Remove unallowable costs from pools*

Allocate allowable pool costs to major functions

Divide: F&A Costs allocated to OR/MTDC* of OR
**Step 3: Allocate Allowable Pool Costs to Major Functions**

<table>

How F&A Costs are Distributed

Allowable Facilities Related Indirect Costs $150M

Allowable Administrative Indirect Costs $50M

Space Allocations

MTC & Other Allocations

Organized Research $100M MTDC

Instruction $200M MTDC

Other Sponsored Activities $10M MTDC

Other Institutional Activities $90M MTDC
Organized Research – F&A Rate

$58M F&A

Organized Research $100M MTDC

= 58% Research F&A Cost Rate
Space Survey

Why is it Important?

• Cost allocation for building and equipment depreciation/interest

• Operations and maintenance

• Rate is uncapped

How Can You Help?

• Key for F&A rate calculation*

• Offices will be calculated based on salary distribution by the Office of Cost Studies*

• For labs, account for who worked in the lab
  – Understand the funding per lab
  – Training grants vs. research grants
  – Recharge
Maximizing F&A Recovery

• F&A recovery is a critical part of the University’s budget and necessary to support a sustained investment in the research enterprise

• Negotiated rate is almost always less than the actual calculated rate*

• Accessing the F&A rate represents recovery of costs already incurred by the University, which benefited the sponsors
F&A Rate Calculation: How Can You Help?

Conduct the following activities *Timely and Appropriately*:

- Effort reporting (working with Cost Studies)
- Space survey (working with Facility Management and Cost Studies)
- Equipment inventory (working with Account Services and Cost Studies)
