PERSONAL INFORMATION

Citizenship: Italian

RESEARCH AND TEACHING FIELDS

Research: Economic History, Applied Microeconomics
Teaching: Economic History, Applied Microeconomics, Development Economics

CURRENT POSITION

Postdoctoral fellow, Economics, Northwestern University, Evanston, Illinois, 2015-17

EDUCATION

Ph.D., Economics, University of Leuven, Belgium, 2009-2014
Visiting Researcher, Dept. of Economics, Stanford University, 2014-2015
Visiting Researcher, Anderson School of Management, UCLA, 2012
M.Sc., Economics (*summa cum laude*), Bocconi University, Italy, 2009
M.Res., Economics, Université Catholique de Louvain, Belgium, 2009
B.Sc., Economics, (*summa cum laude*), Bocconi University, Italy, 2007
Exchange Student, Dept. of Economics, Amsterdam University, The Netherlands, 2006
MA., Philosophy, University of Leuven, Belgium

FELLOWSHIPS AND AWARDS

National Science Foundation (NSF) grant (with N. Voigtländer and R. Juhasz), 2016-19
Outstanding Journal Article Award, Applied Economic Perspectives and Policy, 2015
FWO Grant -- Long stay abroad at Northwestern University, 2015
FWO Research Fellowship, 2012-16
FWO Grant -- Long stay abroad at Stanford University, 2014-15
FWO Grant -- GSE Microeconometrics Summer School, Barcelona, 2011
PhD Fellowship, University of Leuven, 2009-12

Bocconi Merit Award “Studenti Eccellenti”, 2007-09
Fellowship to participate to “Festival dell’ Economia”, Trento, Italy, 2008
“Certamen” of Latin Language, Castrovillari, Italy, 2004

TEACHING EXPERIENCE

Lecturer, Northwestern University, Spring 2017 (scheduled)
European Economic History (undergraduate):
Lecturer, University of Leuven, March 2016
Development Economics (graduate – 2 classes)
Lecturer, University of Leuven, October 2015
Development Economics (undergraduate – 2 classes)

RESEARCH EXPERIENCES AND WORK EXPERIENCE

Organizing Committee, “First Conference on Economics and Politics of Chocolate”,
University of Leuven, Belgium, 2012
Research Assistant (Prof. Vincenzo Galasso), IGER, Milan, Italy, 2008

JOB MARKET PAPER

“Devotion and Development: Religiosity, Education, and Economic Progress in 19th
century France”

Abstract: This paper uses a historical setting to study when religion can be a barrier for diffusion of knowledge and economic development, and through which mechanism. I focus on 19th-century Catholicism and analyze a crucial phase of modern economic growth, the Second Industrial Revolution (1870-1914) in France. In this period, technology became skill-intensive, leading to the introduction of technical education in primary schools. At the same time, the Catholic Church was promoting a particularly anti-scientific program, and opposed the adoption of a technical curriculum. Using data collected from primary and secondary sources, I exploit preexisting variation in *intensity* of Catholicism (i.e., religiosity) among the different districts. I show that, despite a stable spatial distribution of religiosity over time (from 1788 to the 1950s), more religious districts had lower economic development *only* during the Second Industrial Revolution, but not before. Schooling appears to be the key mechanism: in more Catholic areas there was a slower introduction of a technical curriculum, and instead a push for religious education. Religious education, in turn, was negatively associated with industrial development about 10-15 years later, when school-aged children would enter the labor market, and this negative relationship was more pronounced in skill-intensive industrial sectors.

PUBLICATIONS

“Human Capital and Industrialization: Evidence from the Age of Enlightenment” (with N. Voigtländer). *Quarterly Journal of Economics*, 2015, 30(4): 1825-83.
