## Open Educational Resources Grants

### Application Questions

#### Which grant are you applying for?

- \$2,500 for course revisions to replace textbooks and/or course packs with OER
- \$5,000 to develop and publish OER for an academic discipline

#### Contact Information for faculty applicant(s)

- Name
- Email
- Department

#### Please submit a proposal (up to 500 words) for an Open Education Resource Grant that addresses the following:

- How do you plan to incorporate an OER into your course?
- How do you plan to use the grant funds?
- How might you evaluate the success of the OER in your class?
- The number of students typically enrolled in the class
- Estimate of the current cost of course materials
- Estimate reduction in course costs by using an OER.

#### When do you plan to implement the OER in your course?

- Fall, 2019
- Winter, 2020
- Spring, 2020

**We require all original or derivative OER produced as a result of these grants to be published online under a Creative Commons license. The Libraries' digital publishing services will be available to assist. Authors will be credited and will retain the rights to use the works for any teaching or research purposes after the project is completed. Do you agree to these terms?**

- Yes
- No

**After the completion of your project, would you be willing to participate in an event or interview about your experience using OER?**

- Yes
- No

**Comments or Questions for the Review committee:**
