Training WHR Learn Office on the Oniversity's Digital Learning Platform to provide faculty, staff, and students access to safe training. NetDI and Password You must have a University-provided NetDI and password in order to register for ORS training. Your depart can request a NetDI for you.

 Log in with netID and password. In the MyHR Learn site, search for "Basic Laser Safety Course" or "Laser Safety Certification". Complete the steps to register for the course and complete the certification.

 If you work in a research lab, please ask your Principal Investigator or Safety Designate to add the certificate in Lumen - University's online safety data management tool.
