

# Page Section Instructions

NUsites templates are made with Divi Builder **full-width modules (sections)** that have the exact Global Marketing branding that our main University website uses. Divi Builder is a drag and drop website builder that helps users with limited Wordpress knowledge create a website.

## Northwestern Branded Sections/Modules

We currently have 13 sections/modules that NUSites users have the ability to use on their website.

To see an example of how each of these modules work please visit the following page:

[http://sites.northwestern.edu/divi-modules/.](http://sites.northwestern.edu/divi-modules/)

Here are all of the options:
