Section I - Goals

- Create a space for expression and visibility across the institution
- Build a network among Latinx staff and supporters for the exchange of information
- Create professional development opportunities for Latinx staff to progress in their career
- Foster a sense of community and belonging among Latinx staff
- Support diversity recruitment efforts
- Address concerns brought to its attention by its members
- Collaborate and demonstrate solidarity with other Northwestern staff affinity groups

Section II - Values

As a Northwestern affinity group founded to support a sub population that by its nature is diverse and intersectional, our activities are guided by the following core beliefs and values:

- Latinx. We use the term Latinx intentionally to demonstrate our commitment to (support of) an individual’s right for self-determination and expression. Latinx reflects the multifaceted nature of those who recognize a cultural link to a Latin country, heritage, or tradition, and who may transcend the limitations—i.e., gendered duality and constructs of subordination— inherent in the Spanish language that unites us historically.
- Cultural pluralism.
- Intercultural respect and acceptance. We recognize that a common language does not mitigate the cultural and political differences that may exist between Latinx members historically.
- Social justice.
- We work toward recognizing that a spectrum of perspectives, opinions, and philosophies inform and contribute to a vibrant, healthy, collegial, and professional environment.
Role or position at Northwestern will not be a barrier to full participation in the group's leadership board and chair roles.
