

CLARE BOOTHE LUCE UNDERGRADUATE SCHOLARSHIP AWARD

Announcement

Current female students in their junior year with a declared major in Chemistry, Applied Physics, Mathematics or Computer Science are invited to apply for a Clare Boothe Luce Undergraduate Scholarship Award. **Two awards** will be announced prior to spring break 2020 and will include a **full tuition and fees scholarship for the fall and spring semester of the 2020-2021 academic year**(room and board not included); a paid summer research experience (\$4,200 stipend); and an academic year research experience for credit.

Applicants must have a minimum 3.0 cumulative GPA, U.S. Citizenship, previous undergraduate research experience, and plans to pursue either an advanced degree or an immediate career in their field upon graduation. Once selected, recipients will be recognized as Clare Boothe Luce Scholars and will be required to maintain a 3.0 GPA during their senior year.

A completed application for a Clare Boothe Luce Undergraduate Scholarship must include:

- *a completed 2020-2021 Clare Boothe Luce Undergraduate Scholarship Award Application Form as the cover page*
- *a personal statement with focus on career intent (500 words or less)*
- *a brief project proposal (to be designed and carried out by the student applicant) to do modest but meaningful outreach in order to support fellow female STEM majors on campus (300 words or less)*
- *the student's Providence College official transcript*
- *two letters of recommendation from faculty within the student's major department*

An original, signed copy of the completed application must be submitted to the School of Arts & Sciences office, Ruane 147, by Friday, January 31, 2020. Applications will be reviewed by a committee of three department chairs, the Dean of the School of Arts & Sciences, a representative from Financial Aid, and two additional female STEM faculty members. Names of recommended recipients will be shared with the Henry Luce Foundation for final review and approval. The two scholarship recipients will be announced in early March 2020.

Responsibilities of Clare Boothe Luce Scholars

Students who accept the award will be active leaders both on campus and within the greater Providence community by:

- connecting with other STEM students, particularly women, via mentoring and/or tutoring roles;
- presenting their academic research to a campus audience in the fall;
- presenting their academic research at the College's Celebration of Scholarship and Creativity in the spring;
- participating in recruitment events, such as fall admission open houses and spring events for accepted students; and
- completing a service component either via their proposed outreach and support plan or through efforts such as a partnership with the Providence After School Alliance. The College will provide \$500 per Clare Boothe Luce Scholar to help actualize their project proposals.

CLARE BOOTHE LUCE UNDERGRADUATE SCHOLARSHIP AWARD

About The Clare Boothe Luce Program

Since its first grants in 1989, the Clare Boothe Luce Program has become one of the most significant sources of private support for women in science, mathematics and engineering. Clare Boothe Luce, the widow of Henry R. Luce, was a playwright, journalist, U.S. Ambassador to Italy, and the first woman elected to Congress from Connecticut. In her bequest establishing this program, she sought “to encourage women to enter, study, graduate, and teach” in science, mathematics and engineering. Thus far, the program has supported more than 1900 women.
