

# Admission to Biomedical, Health Professions, and Veterinary Medicine Programs

## Minimum Undergraduate Course Requirements

This chart will help students get started in planning for possible admission to health professions graduate programs. These courses represent the minimal requirements. Most schools (especially medical schools) have additional course requirements beyond the minimum listed here. Students should check the admissions standards for individual schools. **If students take the more rigorous sciences and math, all schools and all options remain viable.** Specific advising related to entrance to health professions' schools is also available in the Eberly College of Science Advising Center, First Floor Ritenour ([www.science.psu.edu/premed](http://www.science.psu.edu/premed)). Students considering any of these programs should work closely with their academic adviser regarding their interests and choices of Penn State majors.

		<a href="http://www.opted.org">www.opted.org</a>				
B M B 211 or 401 (Biochemistry)	Some schools require - B M B 401 best preparation for MCATs 2015 (BMB 402 is additional preparation)	Typically not required but for Optometry--B M B 211 or 401 often required	Typically strongly recommended or required (211 or 401 depending on school)	Typically not required	Typically not required but depends on school, sometimes accepted in place of 1 of the organic chem semesters	Typically not required
BIOL 110	Required	Required	Required	Required	Required	Typically not required
BIOL 129	Typically not required	Typically not required Optometry varies	Typically not required	Required	Required	Required
BIOL 230W Cell Biology	Required (C)	Often required	Required (D)	Varies by program	Varies by program	Typically not required
BIOL 240W or 141/142 Physiology	Required (C)	Often required	Often required	Required, only 141/142 usually accepted	Required, only 141/142 usually accepted/preferred	Required, only 141/142 usually accepted/preferred
CHEM 110, 111, 112, 113 General Chemistry	Required	Required	Required	Required	Required	Varies by program
CHEM 210, 212, and 213W Organic Chemistry	Required Best preparation for MCAT exam	Required Some schools accept CHEM 202/203 (6 cr.)	Preferred Best preparation for DAT exam	Varies by program Some schools accept CHEM 202/203 (6 cr.)	Varies by program, most that require accept 202/203	Typically not required
MICRB 106/107 or 201/202 Microbiology	Typically not required	Typically not required Optometry MICRB 201/202	Typically recommended but typically not required	Typically not required	Often required	Required
MATH	022 or higher required (A) , Calculus sometimes required or a certain number of semesters/credits of college-level math	022 or higher required *Optometry MATH 140 typically required	022 or higher required (A)	021 or higher required	021 or higher required	021 or higher required
PHYS 250R/250L and 251R/L or 211R/L, 212R/L, 213R/L, 214R/L Note: Suffixes may vary by campus.	Required (B)	Required (B)	Required (B)	Required (B)	Typically not required	Typically not required
PSYCH 100	Strongly recommended (E)	Varies by program	Varies by program	Required	Required	Required
PSYCH 212	Typically not required	Typically not required	Typically not required	or 270 or 470 Required	Varies by program	or HD FS 129 required
PSYCH 270 or 470	Typically not required	Typically not required	Typically not required	or 212 required	Typically not required	Typically not required
PSYCH 221	Recommended (E)	Recommended	Recommended	Recommended	Recommended	Typically not required
SOC 001, 003, or 005	Strongly recommended (E)	Typically not required	Typically not required	Typically not required	Typically not required	SOC 001 or 005 required
STAT 200, 240 or 250	Varies by program, typically required or recommended	Varies by program	Varies by program	Required	Required	Required

\* BS in Nursing is a second degree. Some schools also require nutrition and genetics (e.g., NUTR 251, BIOL 222).

(A) Some medical schools require Calculus. For adequate preparation for Calculus, students applying to schools requiring Calculus will need MATH 022, MATH 026; or MATH 040; or MATH 041 or satisfactory performance on the Mathematics placement examination as prerequisites.

(B) For adequate preparation for PHYS 250, students will need the following prerequisites: MATH 022, MATH 026; or MATH 040; or MATH 041 or satisfactory performance on the Mathematics placement examination.

(C) BIOL 110 and 230W AND either BIOL 240W or 141 (or BIOL 472 at upper level) are recommended to adequately prepare students for the required MCAT examination.

(D) BIOL 110 and 230W are recommended to help students prepare for the required DAT examination.

(E) PSYCH 100, SOC 001, and PSYCH 221 or SOC 003 are strongly recommended to help students prepare for the required MCAT examination.
