

## Top 10 things That Are important to Me

- 1) Family- My family is my most important thing in life. There is no way that I could live without them. They have been there to pick me up whenever I fall. They support me in everything that I do. They are my backbone and give me advice whenever I need it. Even though we all argue and don't get along all the time doesn't mean that I don't love them. I would not trade my family for anything.

- 2) Friends- My friends are the second most important things in my life. Like my family, I could not live without my friends. Even though we all have busy lives now with school and work, we still make a point to get together on the weekends even if it is just for an hour or so. My friends are my second support system. There are times that I need advice but from a friend's perspective. Even though you ask your parents for advice, it is always nice to know that you have friends that you can go and talk to about anything and not feel judged.

- 3) Music- Music is the third most important thing in my life. I am always listening to music. In our house we have an intercom system that has a speaker in all the major rooms of the house. This way you can play the radio and you can listen to it from anywhere. I always have this on when I am home. I also always have the radio on in the car and I even listen to it as I am falling asleep at night. I normally listen to country music but there are some times that I feel like listening to pop.

- 4) Money- Money is the fourth most important thing in my life. In our society, it is impossible to live without money. Money buys us the necessities, like food, a house and clothing, to live a good life. No one is ever satisfied with the amount of money that they have. We always want more so that we can buy all of the extras in life.

- 5) Pepsi- Pepsi is the fifth most important thing in my life. This is the only soda that I drink. At my house, I always have a case of Pepsi or at least a two liter bottle sitting in my garage. If I would let myself, I would drink Pepsi for breakfast, lunch, supper and anytime in between. Whenever I go out to eat, I normally order Pepsi, but sometimes I do just order water with lemon.

- 6) Television- Television is the sixth most important thing in my life. There is not a day that goes by that I don't turn on the TV whether it is just to hear the weather in the morning or to watch a reality show in the evening. Every Tuesday night I watch Private Practice, every Thursday night I watch Gray's Anatomy and then I like to watch anything on HGTV, TLC, ABC Family and CMT. I also really like to watch Friends whenever I can catch the re-runs. Then when I am home for supper, I usually watch the weather and the news at 5:00 on ABC.

- 7) Scrapbooking- Scrapbooking is the seventh most important thing in my life. I have been scrapbooking for at least eight years. When I was younger, I scrapbooked with my grandma so as I got older, I continued with my mom. I scrapbook major trips as a family, major events in our lives, and all the pictures that people send in their Christmas cards. Scrapbooking is a great bonding experience between me and my mom because it is something that we do together. Scrapbooking is also good to do to get your mind off of something and helps to relieve stress since it is so time consuming and you really have to concentrate if you want your scrapbook to turn out looking nice.

- 8) Ice Cream- Ice Cream is my eighth most important thing in my life. I LOVE ice cream! I eat ice cream at least four, maybe five, days of the week. I work at The Crème Stop in McAlisterville and it is an ice cream parlor so when I work it is hard not to eat a dish of ice cream. Sometimes I even make myself a milkshake. It is very rare for me to work a shift there without eating a baby dish of ice cream. Then sometimes while I am watching a TV show in the evening, I will eat a dish of ice cream. My all time favorite is vanilla ice cream with pancake syrup drizzled over the top. My favorite hand dipped would be cookies and cream and my favorite soft served is pumpkin and cinnamon from The Crème Stop. These two twisted together tastes like pumpkin pie and it is delicious.

- 9) Vacation/Beach- Vacationing is my ninth most important thing in my life. Every summer my family and I take a vacation and it is usually to the beach in Ocean City, Maryland. I love lying on the beach, reading a book, listening to the waves crashing and the seagulls squawking, all while I

am getting a tan. It is perfect! I love to get away from my everyday life and routine, to relax and have fun for a couple of days.

10) Reading- Reading is my tenth most important thing in my life. I love to read for fun. I really like to read romance and mystery novels. During school, I really don't have time to read but I try to fit it in. My favorite time to read is right before I go to sleep. While I lay in bed, it settles me down and stops my mind from racing so I can get a good night's sleep.
