

# Plan for the week - May 19-23

## Important Dates:

- **Wednesday, May 22nd: Arabic Benchmark Test 11:30-1:30 (on the ipads)**
- **MAP Testing starts June 9th - Practice the skills on Edmentum - Exact dates will be announced once finalized**
- After the Eid Al Fitr holiday (exact dates will be announced by KHDA), there will be only 3 weeks of school remaining. We will be conducting end of year assessments for all students starting at the last week of May. Please advise if you plan to leave earlier than June 27th (last day of school).

## Reading Unit 5 - Word Detectives (strategies for decoding)

We are learning to:

- Reading words in a snap
- Use snap words as clues to think about what makes sense
- Use snap words to help read tricky words

## Writing Unit 5 - Writing like a Scientist (This writing unit integrates with our Light & Sound unit).

We are learning to:

- Ask questions and make a hypothesis
- Take accurate notes
- Add Non-fiction text features (labels, captions, bold words)

## Math Unit 9 (Last math unit of the year) The IPP learning targets are posted on the blog.

We are learning to:

- Adding and subtracting 2-digit numbers
- Fractional parts of a whole

## Unit of Inquiry - UOI 6 How the World Works - Light and Sound (science unit)

**Central Idea:** Investigation and observation help scientists understand light and sound.

We are learning to:

- We will continue with our experiments to learn about light.  
Guiding questions:  
Where does light come from?  
How does the amount of light affect how well we see?  
How does light travel?  
How does light interact with different materials (e.g., foil, clear plastic wrap, and wax paper)?  
How does a shadow change as a light source moves?
