<td></td>
</tr>
</tbody>
</table>
"One Health" recognizes the intricate links between the health of humans, animals and the environment. This elective provides an academic conceptual framework and clinical exposure through which to explore the multitude of applications of the "One Health" paradigm in a multidisciplinary context. Students will gain experience working with interdisciplinary teams including veterinarians and physicians on species-spanning approaches to health  
Prerequisite: Permission of Course Instructor  
Offered: AWSpS.

### OB GYN 627 Reproductive Endocrinology and Infertility Elective

The rotation will provide the 4th year student clerk multidisciplinary exposure to the full spectrum of reproductive endocrinology and infertility in a variety of clinical settings including at comprehensive university-based IVF center, public-hospital based clinic, cancer center and subspecialty clinic in pediatric and adolescent gynecology.

- **4 weeks full-time.**
- **8 credits**
- High Pass/Honors eligible

#### UWMC

- **Seattle, WA**
- **Requires Permission:** Yes; **Email:** obclerk@uw.edu
- Has pre-reqs: Yes
Notes: Available by Request Only. URC: University Reproductive Care (URC) at UWMC Roosevelt Clinic. Primary rotation site providing exposure to infertility evaluation and management, assisted reproduction including third party reproduction, evaluation and management of anovulation and ovulation induction, recurrent pregnancy loss, menopause and hormone replacement therapy, and disorders of sexual development. The student clerk will gain exposure to transvaginal ultrasound, hysterosalpingogram, sonohysterography, and intrauterine insemination, as well as outpatient surgeries such as diagnostic hysteroscopy for uterine disorders, D&C and laparoscopy. The student will have the opportunity to participate on scheduled reproductive surgeries at URC, UWMC, and HMC including diagnostic hysteroscopy for uterine disorders and laparoscopy. HMC: Reproductive Endocrinology & Infertility Clinic at Harborview Medical Center (HMC) will provide exposure to the medical and cultural aspects of infertility as presents across different socio-cultural demographic than typically seen in most fertility centers. The clinic serves a point of access to care for the socio-culturally diverse, often low resource and largely international communities served by the medical center. The clinic will be held with Dr. Herndon on the third Friday afternoon (starting at 8AM) to start in December 2018. MHC: Men’s Health Clinic (MHC) at UWMC Roosevelt Clinic is led by Dr. Walsh and his team and provides comprehensive exposure to urologic, sexual and reproductive care involving a wide range of conditions. The student clerk also will spend time in the Andrology Lab (on the 1st floor) observing the assessment of male fertility through semen analysis as well as sperm preparation. SCCA: Onco-Reproduction Clinic at Seattle Cancer Care Alliance (SCCA). This clinic held at SCCA with Dr. Neal Perry and Dr. Yu will provide clinical exposure to the counseling of patients recently diagnosed with cancer on impact of their treatment on fertility and reproductive health as well as options available for fertility preservation. The clinic is held at SCCA on Friday afternoons twice a month week starting in October 2018. SCH: Seattle Children’s Hospital (SCH). The Reconstructive Pelvic Medicine clinic at SCH provides exposure to the diagnostic evaluation and the interdisciplinary clinical management of complex congenital gynecologic anomalies as well as other aspects of pediatric and adolescent gynecology. The clinic is held with Dr. Aimes Oelschlager on the third Tuesday and fourth Friday morning per month
