

First Year Timeline

Jason Dooling

05/11/2018

This is a timeline that gives insight to my academic experience and the culture I have experienced at Lehigh. This is told from numerous critical points throughout my first year of college.

Timeline

Culture, academic experiences, growth.

I am granting those who view my timeline a personal inside look at the struggles and triumphs I have faced throughout my first year of college.

Synopsis

My digital object fully encompasses my Lehigh experience as a first year student. It will be an excellent guide of for students in the future who will look back and be able to relate to the many experiences I have. The students 25-50 years in the future and see what life and Lehigh is like from a typical student who is active in the culture at Lehigh. I speak on Greek Life being a large part of the culture here at Lehigh just as it was when the school was founded. According to the Unit 1 Historical Reading Edmund Hyde claimed “lovely homes were provided by Greek Life Organizations” (Introduction and Lehigh’s Founding). The same can be said today because a large number of the student population are currently living in housing provided by Greek Organizations. I also go on to speak of the famous rivalry between Lehigh and Lafayette that every year attracts a large amount of attention from the Lehigh community. There is no doubt the Lehigh and Lafayette rivalry will still be prominent many years from now into the future. I give an insight to future Lehigh students of my personal experience of my first Lehigh-Lafayette football game. Many alumni still attend the game every year because it is an experience that is truly memorable and I believe my timeline provides an interesting look to future students of how the festivities impacted me. I then speak on one of the many clubs that Lehigh has to offer to its students. I talk about my personal experience in the Lehigh Bible Study and it speaks on Lehigh’s culture in that they have something for every student. It shows Lehigh’s students feel strongly about being connected to other Lehigh students with similar interests in them, creating an enthusiastic and friendly atmosphere at Lehigh. Students in the future will be able to see what Lehigh life was like and be able to compare their experiences regarding the clubs that will exist at Lehigh years from now. The most helpful aspect of my project that future Lehigh students will be interested to know about will be my academic experiences throughout the entire year. It will be helpful for them to know of a student 25-50 years in the past has gone through the same struggles they are facing now and every student is facing some sort of issues. I give them personal insight to the troubles of first being away from home in not ideal living conditions. They will be able to take away lessons from my failures in my first year of college. I spoke on helpful advantages that Lehigh students can use that is provided by the university. It speaks on Lehigh’s culture that it is a difficult school and it will take hard work to succeed but that is what makes Lehigh one of the top schools in the nation. Students in the future can view my project and get a full view on one students Lehigh experience throughout their first year of college. They can relate to my academic experiences throughout my first year and they can compare the culture of Lehigh now and the culture of Lehigh many years into the future.
