

Connor Dean

### Career Plan

I am planning on graduating from the U of A with a B.S. in computer science and a minor in mathematics in the fall of 2020. After that I plan on looking for a job involving coding, but I do not currently have a specific job in mind. I might also be able to get a job with my father at SamaraTech LLC. I would like to self-publish video games in my free time on the side.
