

Cristhian Espinosa – Career Plan

As a student of the University of Arkansas, I have participated in the STEM career fair every year. Last year, I spent a semester in Jönköping, Sweden working on Internet and cloud services and developing backend applications. I was able to connect with local Swedish companies like IKEA and Scania. Current member of IEEE Eta Kappa Nu (HKN), Gamma Phi Chapter. I have worked for the Network Enterprise Systems Team for two years which has allowed me to work with Cisco, Juniper, and Aruba network devices.

3 - 6 Months

- Complete my Honors Thesis
- Expand my knowledge and skills in developing applications
- Obtain network certifications
- Graduate from the University of Arkansas in Fall 2019
- Apply for Grad School
- Continue to search for potential job prospects

6 – 12

- Expand my network of professional contacts
- Continue learning about upcoming technologies
- Evaluate what the long-term future looks like at the current company.

12+ Months

- At this point we will have some experience in the workplace, will need to evaluate what the long-term future looks like at the current company.
