EDUCATION

Ph.D., 1981, University of Wisconsin, Madison, Wisconsin
Major – Botany, Minors – Statistics; Water Chemistry
Advisor - Dr. Linda E. Graham
Thesis title: The role of vitamins in the growth and ecology
of *Cladophora glomerata* (Chlorophyta).

B.Sc., 1969, Cornell University, Ithaca, New York
Major – Biology (Marine), Minor - Chemistry

Awards: NYU Faculty Resource Network University Associate – Summer 2004
IBM Invention Achievement Award for US Patent# 6,314,390 B1, 2001
Nominated for Carrigan Undergraduate Teaching Award, 1994
Davis Graduate Fellowship, 1975
New York State Regents Scholarship, 1965

PROFESSIONAL AFFILIATIONS

International Society of Genetic and Evolutionary Computation (2001- 2007)
American Society of Limnology and Oceanography (1984 – 2000)
North American Benthological Society (1988 – 2000)
Phycological Society of America (1984 – 2000)

PROFESSIONAL EXPERIENCE

Stony Brook University Stony Brook and Southampton, New York
Lecturer of Sustainability, Ecology and Biology – 2007 to present
Director of Ecosystems and Human Impact major – 2008 to present
Associate Dean (Curricula Affairs – Southampton) – 2009 to 2010

University of Vermont (UVM), Burlington, Vermont

College of Agriculture and Life Sciences

Department of Plant Biology (Primary Appointment)

Lecturer and Research Assistant Professor - 1983 -1990

Assistant Professor - 1990 - 1996

Associate Professor - 1996 - 2007. Taught courses on aquatic botany, and plant ecology.

Conducted research on the ecology of algae, and the development of simulation models of aquatic ecosystems. Supervised M.S. and Ph.D. candidates.

Sabbatical Leave – 1998: **IBM Advanced Technology Division**, Essex Junction, VT. Developed evolutionary algorithms for optimizing simulation models. **Université d’Auvergne** and **Université Blaise Pascal**, Clermont-Ferrand, France: did object-oriented programming for ecosystem simulation models incorporating 3D visualization.

Director – 2002 to 2005. Administered new CALS Integrated Biological Science program.

University of Vermont (UVM), Burlington, Vermont

College of Engineering and Mathematical Sciences

Department of Computer Science (Secondary Appointment)

Associate Professor – 2002 - 2007. Conducted research on evolutionary computation applied to modeling complex biological systems. Taught course on Evolutionary Computation.

University of Wisconsin, Madison, Wisconsin

Department of Plant Pathology, 1981-1983

Postdoctoral Research Associate - directed a research team investigating the effect of temperature, light and nutrient stress in the susceptibility of the nuisance aquatic macrophyte, *Myriophyllum spicatum* to disease.

Institute for Environmental Studies, Summer 1980

Lecturer - conducted a graduate workshop on lake management techniques.

Department of Botany, 1974-1979

Teaching Assistant - taught laboratory and discussion sections on general botany and phycology; received rating of excellent on 91% of student evaluations.

Research Assistant - wrote grant and secured funding from the Department of Interior for a study of the role of vitamins and epiphytic bacteria in the nutritional ecology of *Cladophora*.

Department of Bacteriology, 1972-1974

Laboratory Assistant - conducted radioisotope studies on thermophilic bacteria, lichen photosynthesis as a function of water potential, and the effect of power plant thermal effluent on algal community photosynthesis.

Institute for Health Planning, Madison, Wisconsin, 1981

Computer Programmer - wrote data base management programs in FORTRAN and BASIC on a UNIVAC 1180.

University of Michigan, Ann Arbor, Michigan

College of Engineering, 1979-1980

Consultant - designed and directed a controlled-environment photosynthesis study of the nuisance alga *Cladophora* as a function of temperature and light. This project was part of an E.P.A. study entitled, "Ecological Studies and Mathematical Modeling for the Control of *Cladophora* in the Great Lakes."

Employed at several oceanographic institutions, 1967-1972

Research Technician - conducted research on macro and micro algal ecology and physiology. Duties included operation of small boats; SCUBA diving; water sampling; oceanographic cruises; chemical analyses, algal culturing and data analysis.

RESEARCH FOCI

Modeling complex biotic systems, especially aquatic ecosystems; algal and plant-based green technologies for water treatment; use of algal biomass; physiological ecology of algae, especially photosynthesis and production as affected by the interactions among physicochemical factors.

FUNDING HISTORY

Funded

1. Title: Chemistry of Sustainability: Development, Implementation, and Assessment of Three Courses [K. Aubrecht (PI), J. Hoffmann, A. Cassidy, H. Quigley, Jr]
Source: National Science Foundation
Amount: \$195,524
Period: 2012-2014
2. Title: Investigating the Advantages of Gene Expression Programming over Genetic Programming for Evolving Novel Models of Biological Systems. [J. Hoffmann (PI), S. Levine, T. Perkins]
Source: Department of Energy EPSCoR
Amount: \$40,000
Period: 2005-2007
3. Title: Using Genetic Programming to Evolve Optimally Specified Process Models of Biological Systems. [J. Hoffmann (PI), D. Bentil]
Source: U.S. Department of Agriculture-Hatch
Amount: \$35,000
Period: 2003-2007
4. Title: Developing Cross-Disciplinary Learning Experiences in Evolutionary Computation
Source: Center for Teaching and Learning – University of Vermont
Amount: \$5,000
Period: 2004 - 2005
5. Title: A Novel Approach for Developing and Evaluating PDE Models of the Spatial Spread of Invasive Species. [J. Hoffmann (PI), D. Bentil]
Source: Department of Energy EPSCoR and U.S. Department of Agriculture-Hatch
Amount: \$65,000
Period: 2000-2003
6. Title: The Role of Natural versus Anthropogenic Factors in Assessing Ecological Risks in Agricultural Watersheds. [M. Watzin (PI), J. Hoffmann, N. Gotelli, A. McIntosh]
Source: Environmental Protection Agency EPSCoR
Amount: \$268,633
Period: 2000-2002
7. Title: Optimization of an Algal System for Small-Scale Tertiary Wastewater Treatment. [J. Hoffmann (PI)]
Source: U.S. Department of Agriculture-Hatch
Amount: \$54,438
Period: 1995-2000
8. Title: Understanding Phosphorus Cycling, Transport and Storage in Stream Ecosystems as a Basis for Phosphorus Management. [J. Hoffmann (PI), E. Cassell, J. Drake, S. Levine, D. Meals, D. Wang]
Source: U.S. Environmental Protection Agency
Amount: \$190,000
Period: 1993-1996

9. Title: Evaluation of a Modified Algal Turf Scrubber for Small-Scale Tertiary Treatment of Wastewater. [J. Hoffmann (PI), K. Squires]
Source: U.S. Geological Survey via Vermont Water Resources Research Center.
Amount: \$128,870 [includes match]
Period: 1993-1996
10. Title: Acquisition of an Inductively Coupled Plasma Atomic Emission Spectrometer.
[D. Ross (PI), P. Kindstedt, T. Scherbatskoy, W. Harper, W. Jokela, D. DeHayes, J.Hughes, J. Hoffmann]
Source: U.S. Department of Agriculture – NRICGP
Amount: \$49,975
Period: 1996
11. Title: Disturbance Effects on the Autecology of Early and Late Successional Stream Diatoms.
[J. Hoffmann (PI)]
Source: UVM Institutional Research Grant
Amount: \$3,162
Period: 1993
12. Title: Water Quality Restoration of Dairy-Products Wastewater by Attached Algae.
[J. Hoffmann (PI)]
Source: U.S. Department of Agriculture-Hatch
Amount: \$7,500
Period: 1992-1995
13. Title: The Influence of Hydrodynamics on the Growth of Attached Algae. [J. Hoffmann(PI)]
Source: Ecological Systems Inc., Bethesda, Maryland
Amount: \$2,700
Period: 1992-1994
14. Title: Microscope Image Analysis Equipment and Software. [P. Lintilhac (PI), P. Hannah, T. Perkins, T. Otter, R. Ullrich, J. Hoffmann, D. Barrington]
Source: UVM RAC
Amount: \$14,395
Period: 1992
15. Title: The Interaction of Light Intensity and Flowing Water on the Growth of a Phosphorus Limited Alga. [J. Hoffmann (PI), P. Cook]
Source: U.S. Geological Survey via Vermont Water Resources Research Center.
Amount: \$107,569 [includes match]
Period: 1988-1990
16. Title: A Preliminary Investigation of the Population Dynamics of a Unicellular Periphytic Alga.
[J. Hoffmann (PI), P. Cook]
Source: UVM Institutional Research Grant
Amount: \$3,330
Period: 1987-1989

17. Title: The Interaction of Phosphorus Concentration and Flowing Water on the Growth of Stream Algae. [J. Hoffmann (PI), P. Cook]
Source: U.S. Geological Survey via Vermont Water Resources Research Center
Amount: \$37,483 [includes match]
Period: 1987-1988
18. Title: Feasibility of Tertiary Wastewater Treatment by Attached Microbes (Periphyton) in Cold Regions. [J. Hoffmann (PI), J. Morris, P. Cook]
Source: U.S. Dept. of Interior via Vermont Water Resources Research Center
Amount: \$76,148 [includes match]
Period: 1984-1986
19. Title: Feasibility of Tertiary Wastewater Treatment by Attached Microbes (Periphyton) in Cold Regions. [J. Hoffmann (PI), J. Morris, P. Cook]
Source: UVM Institutional Research Grant
Amount: \$3,500
Period: 1984-1985
20. Title: Development of a Biology Slide File for Laboratory Instruction. [J. Hoffmann]
Source: UVM Instructional Development Center
Amount: \$1,800
Period: 1984-1985
21. Title: The Role of Vitamins and Epiphytic Bacteria in the Nutritional Ecology of *Cladophora*. [G. Gerloff (PI), J. Hoffmann]
Source: U.S. Dept. of Interior via Wisconsin Water Resources Research Center.
Amount: \$20,000
Period: 1977-1979

- Auer, M.T., Canale, R.P., Graham, J.M. and **Hoffmann, J.P.** Photosynthetic requirements of *Cladophora glomerata* as related to distribution patterns in the Great Lakes. International Association for Great Lakes Research, Kingston, Ontario, May 1980.
- Hoffmann, J.P.** Photoperiodic control of reproduction in the nuisance alga *Cladophora glomerata* (L.) Kutz (Chlorophyceae, Cladophorales). Phycological Society of America, Stillwater, Oklahoma, August 1979.

INVITED TALKS

- Oekologie to Oecology to Ecology: The history and essence of a young science. Bookhampton Lecture Series, Easthampton, NY, February 13th, 2010.
- Darwin and Computational Ecology: How Simple Computational Models of Evolution Help our Search for Better Models of Ecological Systems. Invited Keynote address at the Open International Conference on Modeling & Simulation, June 12th – 15th 2005 – ISIMA / Blaise Pascal University – France
- Evolutionary Computation and Model Selection. UVM Computer Science Seminar Series, January 2002.
- Evolutionary Computation. IBM Workshop. Essex Junction, VT, May 2001, May 2002.
- Deterministic Compartment Models in Ecology. Cemagref, Clermont-Ferrand, France, September 1998.
- Periphyton-Phosphorus Interactions In A Cold-Region Eutrophic River. Geology Seminar Series on Lake Champlain and its Basin. University of Vermont. March 1996.
- Using Periphyton For Applied And Basic Research. Current Topics in Biology lecture series. Johnson State College, Johnson, VT. March 1995.
- Treating Wastewater With Attached Algae: A Research Facility To Optimize Performance. Alternative Waste Water Treatment Conference. Lake Champlain Basin Program and E.P.A., Burlington, VT. October 1994.
- Algal Periphyton: A Model System For Investigating Ecological Succession. North Carolina State University, Raleigh, NC. October 1992.
- Ecology of Attached Algae of Streams. Sigma Xi annual banquet. Trinity College, Burlington, VT. April 1991.
- Research on The Ecology of Stream Algae at The University of Vermont. New England Association of Environmental Biologists. Fifteenth Annual Meeting, Fairlee, VT. March 1991.
- Botany and Medical History. Beaumont Medical History Club. University of Vermont Medical Alumni Association, Burlington, VT. October 1990.
- Structure and Dynamics of Algal Periphyton In Lotic, Hypertrophic Systems. Environmental Science Seminar. Johnson State College, Johnson, VT. February 1989.
- Structure and Dynamics of Periphyton in a Lotic, Hypertrophic System. Fourth Annual Periphyton Conference, University of Louisville, Louisville, KY, March 1988.
- Perspectives on Aquatic Plant Pathology. Ecology Seminar Program. Johnson State College, Johnson, VT. February 1987.

TEACHING EXPERIENCE

STONY BROOK COURSES:

BIOLOGY 201 Organisms to Ecosystems. (Fall 2007, 2009; Spring 2008, 2009 : 130 students)

Lecture – 3 credits

Introductory course on evolution, biodiversity, and ecology.

BIOLOGY 204 Fundamentals of Scientific Inquiry in the Biological Sciences. (Spring 2008: 27 students)

Laboratory – 2 credits

Introductory lab course emphasizing process and methods of biological inquiry.

BIOLOGY 301 Sustainability of the LI Pine Barrens. (Fall 2008, 2009; Summer 2009 - 2013: 21 students)

Lecture – 3 credits

Interdisciplinary course of the interactions of geological, ecological, development and economic factors impacting the Pine Barrens.

BIOLOGY 351 Ecology. (Fall 2007, 2008, Spring 2009: 33 students)

Lecture – 3 credits

Introductory course on the ecological principles of physiological, population, evolutionary, community, and ecosystem ecology.

BIOLOGY 352 Ecology Laboratory. (Fall 2008, 2009: 10 students)

Lecture, laboratory, recitation – 3 credits

Introductory ecology lab course emphasizing field and lab methods, data collection, and analysis.

EHI 311 Ecosystem Based Management. (Fall 2012, 2013: 16 students)

Lecture – 3 credits

Ecosystem-Based Management (EBM) is an emerging management paradigm for balancing ecosystem health and human activities.

EHI 343 Sustainable Natural Resources. (Spring 2011, 2012, Fall 2014: 21 students)

Lecture – 3 credits

Exploration of the technological, economic, and social aspects of the potential of sustainable natural resources to replace non-renewable resources.

ENV 310 Sustainability and Renewable Energy in Costa Rica (4 credits). (Winter 2014: 16 students)

Lecture and field – 4 credits

Field course in Costa Rica on sustainability efforts, especially renewable energy and biodiversity .

ENV 340/CEB 585 Ecology of Algae and Plants of LI Freshwater Habitats. (Summer 2009: 24 students)

Lecture, laboratory, and field – 3 credits

Course on algal and plant biodiversity and ecology of Long Island's freshwater habitats of the Pine Barrens.

ENV 340 Green Technologies for Water Treatment (Spring 2011-2015: 16 students)

Lecture/Discussion – 3 credits

Exploration of emerging technologies (algal turf scrubbers, artificial wetlands, eco machines...).

SBC 201 Systems and Models. (Spring 2008 - 2015; Fall 2010 - 2014: 60 students)

Laboratory –1 credit

Introductory interdisciplinary course on computer simulation of dynamic models of complex systems (biological, ecological, economic, and environmental).

SBC 401 Integrated Systems Studies. (Fall 2010, 2011, 2012, 2013, Spring 2014, 2015: 22 students)
Lecture, Team projects – 3 credits
Problem-based capstone course.

SBC 475 Undergraduate Teaching Practicum (Fall 2011-2014: Spring 2012-2015: 6 students)
Mentoring meetings, one-on-one teaching, help sessions – 3 credits
Hands-on teaching of content and methods.

SBC 488, ENS 488, MAR 488 Internship (Spring 2009, 2010; Fall 2009, 2011; Summer 2013: 6 students)

EHI 487 Independent Research (Spring 2011, Fall 2012, Summer 2013: 3 students)

UNIVERSITY OF VERMONT COURSES:

BIOLOGY 1,2 Principles of Biology. (Fall: 550 students, Spring: 400 students).
Lecture, lab - 4 credits.
Course coordinator for teaching staff of 20 with 24 laboratories per week (1983 to 1991).

BIOLOGY 2 Principles of Biology. (Spring 1986 to 1994: 400 students).
Lecture, lab - 4 credits
Lectures on chemistry, enzymes, thermodynamics, origin of life, cytology, membranes, respiration and photosynthesis.

BCOR 102 Ecology and Evolution. (Spring 2007: 48 students).
Lecture, lab - 4 credits
Core course on ecology and evolution required of life-science majors.

BOTANY 6 The Green World.
(Spring 1984, 1985, Fall 1986, 1988, 1990-1994, 2000-2005, 2007: 250 to 300 students).
Lecture - 3 credits Course on ethnobotany for non-science majors.

BOTANY 160 Plant Ecology. (Fall 1985, 1987, 1989, 1991-1997, 1999, 2002: 20 students).
Lecture, lab - 4 credits Course on plant ecology for biology majors.

BOTANY 197, 198 Undergraduate Independent Research.
(1988-1990, 1994-1995, 1996-1997, 2004: 21 students).
Supervised student research projects for variable credit hours.

BOTANY 213 Plant Communities. (Spring 1992: 12 students)
Lecture, lab - 3 credits
Course on plant community ecology for upper-level undergraduates and graduate students.

BOTANY 234 Freshwater Algal Ecology. (Spring 1996, 1999: 8 students)
Lecture, lab - 3 credits
Course on algal ecology for upper-level undergraduates and graduate students.

BOTANY 295 Special Topics – Evolutionary Computation. (Fall 2000: 15 participants).
Graduate colloquium - 1 credit

BOTANY 295 Special Topics – Evolutionary Computation. (Fall 2004: 16 students).
Lecture, lab - 3 credits
Course on evolutionary algorithms for advanced undergraduates and graduate students.
Cross-listed with Computer Science.

BOTANY 295 - Special Topics - Aquatic Plants of the Lake Champlain Basin.

(Summer 1992-1997, 1999, 2007: 15 students).

Lecture, lab and field - 3 credits.

Field course on the ecology of aquatic plants and algae of lakes and streams in the Champlain Valley.

BOTANY 295. Special Topics - Phosphorus Dynamics in Rivers. (Spring 1994: 4 students). Graduate colloquium - 1 credit

BOTANY 295. Special Topics - Theoretical Plant Ecology. (Fall 1989: 5 students). Graduate colloquium - 1 credit.

BOTANY 295. Special Topics - Ecological Models. (Spring 1995: 5 students). Graduate colloquium - 1 credit

BOTANY 295- Special Topics - Plant Biology for Middle and High School Teachers (Summer 1999, 2000: 11 students) - 3 credits (Team taught)

BOTANY 298A. Special Topics - Phycology. (Spring 1987: 3 students) Lecture, lab - 3 credits.

BOTANY 298B. Special Topics - Phycology Field Trip. (Summer 1987: 3 students). 1 credit.

Continuation of BOTANY 298A at ocean field site.

BSCI 197, 198. Biological Sciences Undergraduate Independent Research. (Fall 2004: 8 students; Spring 2005: 7 students).

Supervised student research projects for variable credit hours.

UNDERGRADUATE RESEARCH SUPERVISION: 25 students, Spring 1985 to 2014.

INTERNSHIP SUPERVISION:

- Emilie Breugnot, graduate student, University of Paris – Summer 2001
- Adam Dow, undergraduate student, SUNY Potsdam – Summer 2002
- Julia Hryvniak, Amy Tucker, Terra Dunlop, Valentina Sherlock, Peter Priolo, Johana Peters-Uitto, Joseph Sequiera, Christina Muggeo: undergraduate students, Stony Brook – Spring 2008, Fall 2009, Spring 2010, Spring 2011, Summer 2012, 2013

DISSERTATION COMMITTEES: 33 M.S. and 10 Ph.D., Fall 1984 to 2014

THESIS SUPERVISION:

- | | | |
|--------------------|-------|----------------|
| • Laurie Gordon | M.S. | completed 1987 |
| • Alan Quackenbush | M.S. | completed 1990 |
| • Mark Borchardt | Ph.D. | completed 1991 |
| • Matt St.John | B.S. | completed 1992 |
| • Gregory Gustina | M.S. | completed 1996 |
| • Joseph Woerner | B.S. | completed 1997 |
| • David Kirschtel | Ph.D. | completed 2000 |
| • Bonsu Osei * | Ph.D. | completed 2005 |

* (co-advised with Dr. Bentil in Mathematics)

SERVICE EXPERIENCE

Stony Brook University – Stony Brook and Southampton Committees

- Environmental Economist Search - 2013
- Dean of Students Advisory Council – 2007, 2008
- Curriculum Development of Ecosystems & Human Impact Major – 2008
- Lecturer Search Committees (Mol. Bio, Ecology, Marine Sci.) – 2008, 2009, 2010
- Design Committee for LEEDS Sewage Treatment Plant and Eco-Machine – 2008 to 2010
- SoMAS Marine Station Building Committee – 2009 to present.
- SBS Dean/VP Search Committee – 2008
- Faculty Advisor to Garden/Greenhouse Club – 2008 to 2010
- Director of Ecosystems & Human Impact Major – 2008 to present
- SBS Tenure Criteria Committee – 2009
- Dean of Admissions Advisory Committee – 2009
- Campus Beautification Committee – 2009
- SBS Curriculum Task Force - 2009
- SBS Space Task Force – 2010
- SBS Orientation Committee – 2010
- Curriculum Development and Course Scheduling – Spring 2010

University of Vermont Committees

- University Undergraduate Research Symposium – 1992.
- CALS Director of the Integrated Biological Science Program – 2002 to 2005
- CALS Director of the Biological Sciences Program – 2004 to 2005
- CALS/SNR/Extension Division Review - 1992 to 1993.
- CALS USDA Hatch Review Panel - 1993 to 1997, 2002.
- CALS Plant Biology Department Chair Review - 2007
- CALS Scholarship - 1993 to 1997.
- CALS Curriculum - 1991 to 1994.
- CALS Carrigan Award - 1991.
- CALS Honors - 1989 to 1991.
- CALS Computer - 1984 to 1985.
- CALS Faculty Standards - 1999 to 2002.
- CAS Zoology Department Chair Review - 1989.
- CAS Purple Howard Professorship committee (Chair) – 2001
- SNR Fisheries Biologist Search - 1995-1996
- SNR and CALS Aiken Lecture Series Planning Committee - 2001
- A.W. Mellon Undergraduate Research (Chair) - 1991 to 1996.
- Lake Champlain Science Center and Lake Studies Laboratory Planning Committee - 1994 to 1997.
- Vermont Water Resources and Lake Studies Center Advisory Committee – 1997 to 2007.
- Vermont Advanced Computing Center Advisory Committee - 2007
- Computer Science Department Graduate Student Admissions – 2003 to 2005
- Botany Department Chair Search – 1992, 2001.

- Botany Department Plant Ecologist Search (Chair) – 1993, 2001.
- Botany Department Teaching Fellowship - 1984 to 1993.
- Botany Department Space Allocation (Chair) - 1984 to 1993.
- Botany Department Curriculum (Chair) - 1992 to 2000.
- Botany Department Seminar Program - 1999 to 2002.
- Botany Department Undergraduate Program - 1997 to 1998.
- Plant and Soil Science Department Horticulturalist Search - 1995-1996

Professional:

- Phycological Society of America Education Committee – 1994
- International Committee for OICMS (biological modeling conference) – 2004 to 2006
- Sigma Xi Program Committee - 1991 to 1992.
- NASA plant biology panel review for Space Shuttle and International Space Station experiments.
- NSF,USDA, EPA proposal reviewer.
- Reviewer: Journal of Phycology, North American Benthological Society, Water Resource Bulletin.
- Text reviewer for Worth Publishers and Benjamin/Cummings Publishing Company.
- Consultant to Algal Polymers Inc. on algal growth and reproduction - 1995.
- Consultant to Vermont legislature on nuisance aquatic plants - 1989.
- Water Quality Consultant to Scitest Inc. and Wagner, Heindel and Noyes Inc. – 1989.
- Developed (w/ E. Cassell and J. Drake) a computer-modeling workshop for GSA – 2001.
- Organized an all-day [Evolutionary Computation workshop](#) at UVM - 2003

Community:

- Organizer of New York State Lake Association for Wildwood Lake – 2009 to present
- Advisory Board for Roots Community Garden Project – 2010 to present
- Town of Colchester, Malletts Bay Advisory Commission (Chair) - 1990 to 1994
- Vermont Computer Club (150 members) Steering Committee - 1984 to 1987
